This course demystifies the complexities of securitisation, offering a comprehensive foundation for those looking to deepen their understanding of this critical financial mechanism. Designed to cover both key concepts and practical applications, it equips participants with the essential knowledge to navigate securitisation's role in modern finance, enhancing technical skills and strategic insight. This course is ideal for anyone seeking to effectively utilise securitisation in today's dynamic financial environment.

**COURSE OUTCOMES:** the course aims to equip you with-

- An understanding of what is meant by securitisation;
- An overview of the main role players and types of structures;
- The process involved in structuring a securitisation programme and the legal, regulatory, accounting and tax complexities to consider; and
- The overall benefit of securitisation as an innovative tool in supporting economic growth and mobilising in the financial markets.

**PRESENTERS:** This course is the result of a collaborative effort between the University of Cape Town and the South African Securitisation and Asset Backed Securities Forum, with a number of leading experts in the field contributing to the content.

## CPD ACCREDITATION

Watch this space!
