Transaction overview

The collateral home loans comprise amortising loans originated by EFC to direct employees of Eskom and a limited number of loans to employees of other Eskom group companies. The loans are advanced to borrowers for the purchase of immovable residential property (including Sectional Title property) situated in South Africa, against the security of mortgage bonds registered over the properties in favour of the Home Loan Lender (initially the Seller, subsequently the Issuer). Most loan payments are subsidised by Eskom and are serviced through salary deductions. In the revolving period, qualifying home loans are purchased each month from EFC to top up the asset pool.

Note that substitutions are not allowed in terms of South African securitisation legislation as the Issuer is not a Bank.

NB: Please refer to the Transaction Documents, including the Applicable Pricing Supplements, for full details.

Interest rate margin

The Required Interest Rate margin between the weighted average home loan rate and the 3 month JIBAR rate is to be tested in two ways on Interest Payment date: the margin of the 12 months rolling averages of each rate and the margin of the actual rates applicable on those dates. For trend purposes, the rates are shown below at each month end with the current JIBAR rate as determined on each reset date for the quarter. The same trigger margin applies to both calculations.
