

# INVESTOR REPORT 23 AUGUST 2024 TO 22 NOVEMBER 2024

#### **COVID 19 AND MARKET DISRUPTION NOTICE**

The outbreak of the COVID-19 coronavirus resulted in disruption to business activity globally and market volatility from mid-January 2020. On 27 March 2020, South Africa's sovereign credit rating was downgraded to sub-investment grade.

These factors contributed to the inability of Nqaba to refinance R459 million Notes which matured on 22 May 2020 and a further R210 million (original issued value) on 22 May 2021. These are not events of default.

On 31 July 2020, the aggregate principal balances of home loans owned by the Issuer which were in arrears for more than 3 months, exceeded 2.5% of the aggregate principal balances of the home loans. This is an Early Amortisation Event but is also not an event of default.

With effect from 22 May 2023, all Notes have matured and have not been refinanced.

In terms of the Programme Memorandum, the Issuer has to use funds in the Pre-Enforcement Priority of Payments applicable during the Amortisation Period, to make Mandatory Redemptions in part of all notes (in reducing order of rank and pari passu if of equal rank). Consequently, the Issuer is unable to purchase further assets to top-up the pool and cannot pay interest on the subordinated loan.

In terms of the Applicable Pricing Supplements, there have been changes to the interest payable on the Matured Notes and, for certain notes, also from the start of the amortisation period, as detailed on page 12 of this report.

#### Transaction overview

The collateral home loans comprise amortising loans originated by EFC to direct employees of Eskom and a limited number of loans to employees of other Eskom group companies. The loans are advanced to borrowers for the purchase of immovable residential property (including Sectional Title property) situated in South Africa, against the security of mortgage bonds registered over the properties in favour of the Home Loan Lender (initially the Seller, subsequently the Issuer). Most loan payments are subsidised by Eskom and are serviced through salary deductions. In the revolving period, qualifying home loans are purchased each month from EFC to top up the asset pool but in the Amortising Period, funds must be applied to the redemption of Notes, so no further loans can be purchased.

Note that substitutions are not allowed in terms of South African securitisation legislation as the Issuer is not a Bank.

NB: Please refer to the Transaction Documents, including the Applicable Pricing Supplements, for full details.

# Related portfolio covenants

During the Revolving Period, the Issuer may purchase additional home loans in terms of the home loan sale agreement if, immediately following such acquisition on the relevant transfer date, the following portfolio covenants are satisfied. In the Amortising Period, no additional home loans may be acquired but the covenants are still applicable to redraws and further advances:

# Provisions

Nqaba establishes an allowance for impairment of the loan book that represents its estimate of incurred losses in terms of IFRS 9: Financial Instruments, based on an expected credit loss (ECL) model. The company applies lifetime ECL measurement if the credit risk of a financial asset at the reporting date has increased significantly since initial recognition and applies a 12-month ECL measurement if it has not.

The amounts shown in the company's Management Reports are:

#### Interest rate margin

The Required Interest Rate margin between the weighted average home loan rate and the 3 month JIBAR rate is to be tested in two ways on Interest Payment date: the margin of the 12 months rolling averages of each rate and the margin of the actual rates applicable on those dates. For trend purposes, the rates are shown below at each month end with the current JIBAR rate as determined on each reset date for the quarter. The same trigger margin applies to both calculations.
